National AIDS Policy

†1247. SHRI BALKAVI BAIRAGI: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) the main features of National AIDS Policy and the instructions issued for the prevention of increasing HIV infection in the country;

(b) the safety measures taken to protect the children and women of weaker sections of the society from AIDS infection under the said policy; and

(c) the places in backward and tribal areas of Andhra Pradesh where voluntary test facilities of HIV infections are set-up/proposed to be set-up in accordance with the said policy?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRI A. RAJA): (a) to (c) The salient features of National AIDS Prevention and Control Policy are as under:—

(i) to prevent the epidemic from spreading further and to reduce the impact of the epidemic not only upon the infected persons but upon the health and socio-economic status of the general population at all levels,

†Original notice of the question was recieved in Hindi.

(ii) to reiterate strongly the Government's firm commitment to prevent the spread of HIV infection and reduce personal and social impact,

(iii) to generate a feeling of ownership among all the participants both at the Government and non-Government levels, like the Central Ministries and agencies of the Government of India, State Governments, city corporations, industrial undertakings in public and private sectors, panchayat institutions and local bodies to make it a truly national efforts,

(iv) to create an enabling socio-economic environment for prevention of HIV/AIDS, to provide care and support to people living with HIV/AIDS and to ensure protection/promotion of their human rights including right to access health care system, right to education, employment and privacy, to mobilise support of a large number of NGOs/Community Based Organisations (CBOs) for an enlarged community initiative for prevention and alleviation of the HIV/AIDS problem,

(v) to decentralise HIV/AIDS control programme to the field level with adequate financial and administrative delegation of responsibilities,

(vi) to strengthen programme management capabilities at the State Governments, municipal corporations, panchayat institutions and leading NGOs participating in the programme,

(vii) to bring in horizontal integration at the implementation level with other national programmes like Reproductive and Child Health, TB Control, Integrated Child Development Scheme and with the primary health care system,

(viii) to prevent women, children and other socially weak groups from becoming vulnerable to HIV infection by improving health education, legal status and economic prospects,

(ix) Promotion of Voluntary Counselling Testing for HIV/AIDS: Adequate voluntary testing facilities with pre-test and post-test counselling should be made available throughout the country in a phased manner. There should be at least one HIV testing centre in each district in the country with proper counselling facilities,

(x) to provide adequate and equitable provision of health care to HIV-infected people and to draw attention to the compelling public health

rationale for overcoming stigmatisation, discrimination and seclusion in society,

(xi) to constantly interact with international and bilateral agencies for support and cooperation in the field of research in vaccines, drugs, emerging systems of health care and other financial and managerial inputs,

(xii) to ensure availability of adequate and safe blood and blood products for the general population through promotion of voluntary blood donation in the country, and

(xiii) to promote better understanding of HIV infection among people, especially students, youth and other sexually active sections to generate greater awareness about the nature of its transmission and to adopt safe behavioural practices for prevention.

2. The National AIDS Prevention and Control Policy has been approved by the Government on 02.4.2002 and it has been circulated to all States/U.Ts Governments, etc. for taking necessary action in the matter on the basis of the said policy.

3. Government in collaboration with and through the community will promote a supportive and enabling environment for women, children and other vulnerable groups by addressing underlying prejudices and inequalities through community dialogue, specially designed social and health services and support to community groups.

4. There are 102 Voluntary Counselling & Testing Centres in Andhra Pradesh, out of which fourteen (14) are Prevention of Mother to Child Transmission Centres located in all Teaching Hospitals for Counselling and Testing Anti Pregnant Women. List of Voluntary Counselling & Testing Centres including Prevention of Mother to Child Transmission Centres in Andhra Pradesh is at Statement.

Foreign travels by the officials

1248. SHRI S.M. LAL JAN BASHA: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether it is a fact that officials travel frequently to foreign countries for seminars and conferences;

(b) if so, whether it is advisable to accept all such invitations for foreign travel by officials of his Ministry;

(c) the steps taken by Government to reduce foreign travel by officials of his Ministry;

(d) whether Government have any plan to ensure that officials do their routine administrative work rather than work diligently to obtain invitations for foreign travel; and

(e) if so, the details thereof?

THE MINISTER OF HEALTH AND FAMILY WELFARE (SHRI SHATRUGHAN SINHA): (a) No, Sir.

(b) to (e) Officials of Ministry of Health and Family Welfare are permitted to go abroad to attend seminars, conferences and meetings which are necessary and in public interest.

Implementation of health schemes in H.P.

1249. SHRI ANIL SHARMA: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) the details of financial allocations made by Government for Himachal Pradesh for implementation of various health schemes during the last three years, year-wise, scheme-wise and district-wise;
